# Pool Closing Information

## Your pool closing will include:

- Lowering water level with a high speed pump. If more than 100' discharge distance is needed or water release complications exist, please let us know in advance.
- Properly drain & winterize pump, filter and heater.
- Quick rinse of cartridges. Professional Cleaning Service is optional.
- Winterize Plumbing Lines.
- Add Winterizing Chemicals, Shock, Winter Algaecide, & Antifreeze.
- Place your Winter Cover for a Full Closing.

## Important Information:

- Ensure water is properly balanced prior to closing. ph., calcium, alkalinity.
- Make sure pool is as clean as possible prior to our arrival.
- If you will not be home, please make sure pets are secured and we have access to the pool area, water, electricity, pool cover, closing plugs & gizmo's.
- For a **Partial** closing the cover must be installed **after** we winterize the pool.
- Filter cartridges should be thoroughly cleaned and stored in a dry place. We will leave cartridges out near the pool to be put away if we do not know where they are to be stored. If you would like for us to professionally clean your cartridges please select option when you confirm.
- Please check to confirm all power is off to pool equipment after pool has been closed.
- Payment must be made in full at time of scheduling service.
- Any outstanding balance on either Ferrari Pool or Ferrari Full Circle account must be paid before pool is closed.
- If closing items are not accessible or payment has not been made then we cannot provide service. If you have any questions please call the Service Dept. at 508-329-5061 ext. 3 or email [service@ferraripools.com](mailto:service@ferraripools.com).

**Your business is truly appreciated by all of us at Ferrari! We hope you have had a wonderful summer & we look forward to seeing you in the spring!**

### **IMPORTANT SAFETY NOTICE**

It is important to make sure all drain covers are securely attached in order to prevent any possible entrapment accidents. If your drain cover is loose or no longer attached please notify our service dept. immediately. Even though our pools are constructed with split suction and the possibility of an accident is not likely we are asking for safety's sake do not allow anyone to swim with the pool running and the drain cover not securely in place.

**Please double check to make sure all breakers for your pool equipment are in the off position after your pool has been closed.**

### **Maintain a Proper Water Level – Protect your tile, coping, and pool cover**

We strongly recommend you pump out excess water before a winter freeze to prevent freeze damage to your tile & coping. Your water level should be down approx. 12" from the tile but no more than 18" below the top of your pool before a hard freeze. Heavy snow weight can displace your pool water under your cover this allow ice to form and potentially cause damage to your tile & coping. Ice damage is not covered under warranty. Water level should not be below 18" from the top of the pool in order to avoid ice or snow damage to your Loop Loc pool cover. Ice or snow damage is not covered under warranty. If you would like to purchase a pump to lower your water level please let us know to have it delivered.

### **FILTER CARTRIDGES NEED TO BE CLEANED**

It is essential that you do a thorough cleaning of your cartridges. Please be sure they are thoroughly cleaned before your spring opening. Please refer to your Owner's Manual for recommended cleaning procedures.

Filter cleaning products are available for purchase from our Technicians. Please let us know if you need some in advance. You may also purchase filter cleaning products at our Shrewsbury Showroom.

### **PROFESSIONAL FILTER CLEANING SERVICE**

We will pick up dirty filters from your closing and professionally clean them and return them back to you.

\$250.00 - 1 set

\$300.00 - 2 sets

### **Salt Generator Flow Cells**

Flow cells should be acid washed to maximize effectiveness and clean off any residual debris. We are offering this service at time of closing for an extra fee of \$25.00. Please let us know if you would like this service.
